

hello i writing in regards to the petition to stop instance traffic and weather service writing to let u know iam subcribe of xm satelite radio service and as over the road trucker the instance traffic and weather is a great tool in our job i also think as a traveler who out on family vacation this would be a great tool also i have xm satelite radio in my car and home also i love the service xm satelite radio provides to it customers they do radio the way it should be done doing what the customer ask i believe it is the 1st amendment rights to be able to subcribe to xm satelite radio and be able to have xm satelite radio offer instance traffic and weather i think have insatnce traffic avail to motorist and travelers and trucker and business people alike is great too to be able to plan an alt route if need because of weather or traffic tie up and with regular u would not be able to pick this up untill it would be too late because their singal would not come in untill u are almost in the city limits dont get me wrong iam not putting regular radio down or say you should get rid of your regular radio airways and go with satelite radio i believe its everyone 1 st amentment right to pick weather they want standard radio or satelite radio like i say standard radio does a great job and should be offer to its listners just like satelite raido should aslo be offer to it listners i beg you to stop and think about everyone 1st amentment right to choise to have this service or not and not be giving to the courts to deside weather xm satelite radio should have instance traffic and weather well have a nice day thx
